Q2.07.2018 15-1/17860

To H.E. Alexandros Catrani
Ambassador of the Hellenic Republic

Your Excellency,

The Center for International Programs is known in the world educational market as an administrator of "Bolashak" Presidential International Scholarship, which for 25 years has been providing the most talented students from Kazakhstan a unique opportunity to get higher education at the best universities all over the world.

The Center has extended its authority and set a new bar – the implementation of intergovernmental agreements and various international educational programs – with the main aim of informing prospective applicants about the opportunities of obtaining an education abroad. Therefore we are pleased to offer the following ways of cooperation (the Center can provide assistance to Greece universities at no cost).

1. Information campaign (advertising, information support) and promotion of Greece universities in all regions of Kazakhstan (spreading information about the conditions and advantages of studying, degrees, programs etc.)
2. Assistance in the development of dual award programs with local universities (finding suitable partners, etc.);
3. Assistance in the development of academic mobility programs for students and academic staff between our countries.

We would also be very glad to discuss the possibilities of developing co-financed projects (scholarships, grants and etc).

According to the report of the Ministry of Education and Science of the Republic of Kazakhstan, there are more than 70,000 students studying abroad. Furthermore, 287,000 students completed high school in 2018. Around 400,000 thousand students joined 1st grade of school. Every year the number of students in Kazakhstan is highly increasing. We are seeing Greece Universities such a great opportunity to attract more students.

In order to set up relationships and get to know the educational potential of Kazakhstani students and educational institutions we would like to invite universities from Greece to participate in our annual "International Education Fair 2018", which is planned to be held in November 2018 in 4 major cities of Kazakhstan (Astana, Shymkent, Atyrau and Almaty) with expectation of attendance of approximately 30,000-40 000 students.

Should you have any questions or queries, please, do not hesitate to contact us any time. We look forward to furthering fruitful cooperation.

Sincerely

2/2
